

ANKEM DURGASRI

☎ 9652847284 | ✉ bhavani.ankem@sasi.ac.in | 🔗 LinkedIn | 🐙 GitHub | 🏆 Striver Profile
Information Technology Student

EDUCATION

SASI Institute of Technology & Engineering <i>B.Tech in Information Technology</i>	2024 – 2027 CGPA: 8.8
Diploma in Electronics & Communication Engineering	2021 – 2024 Percentage: 88.45%

SKILLS

Programming Languages: Java, Python, C, SQL, JavaScript
Machine Learning: Random Forest, Classification, Data Preprocessing, Model Evaluation
Libraries: NumPy, Pandas, Scikit-Learn
Coursework: Machine Learning Fundamentals, Data Analytics with Python
Core Subjects: Data Structures and Algorithms, Probability, Statistics, Linear Algebra, DBMS, Operating Systems
Tools: GitHub, VS Code, Jupyter Notebook

PROJECTS

ML-Based Plant Disease Detection System | *Python, Random Forest, Scikit-Learn*

- Developed a Machine Learning based Plant Disease Detection System using a Kaggle dataset.
- Implemented data preprocessing and feature engineering techniques.
- Applied Random Forest algorithm for disease classification.
- Achieved 65% prediction accuracy on the testing dataset.
- Led a team of 4 members and coordinated model training and evaluation.

Digital Notice Board Using IoT | *Raspberry Pi, IoT*

- Developed an IoT-based digital notice board for real-time communication.
- Worked as Deputy Team Lead and contributed to hardware integration.

CERTIFICATIONS

- NPTEL - SQL Using PostgreSQL
- NPTEL - Data Analytics with Python
- Cisco Networking Academy - Operating Systems
- Google Cloud Skills Boost Program

ACHIEVEMENTS

- Qualified Internal College Round of Smart India Hackathon (SIH) 2025.
- Active DSA learner following Striver A2Z Sheet.
- Participated in Google Cloud Skills Boost Programs sponsored through Hack2Skill.

EXPERIENCE

E-Pro Technologies

6 Months

Electronic Component Tester Intern

- Tested and validated electronic components used in chip-design related processes.
- Gained exposure to semiconductor testing workflows and hardware validation.
